

Welcome to the ***Bold Bullets Newsletter***

A showcase of *Aerospace, Healthcare, and Software* patent law news

Visit our [website](#) for access to more patent news

Check out the [BOLD Blog!](#) Where Bold puts our own spin on featured articles.

[BOLD Bits!](#) Tune in for quick tips, tricks, and lessons in Intellectual Property.

Aerospace

[Flyht Aerospace Solutions has received a patent from the USPTO for FlyhtStream. FlyhtStream is an emergency data streaming software that will transmit information and data to the airline in realtime in response to an emergency situation or](#)

malfunction. Typically, this information is only tracked via the aircraft's blackbox, but cannot be accessed until after the aircraft has stopped. Flyht Aerospace Solutions is awaiting patent grants from other regions for the technology.

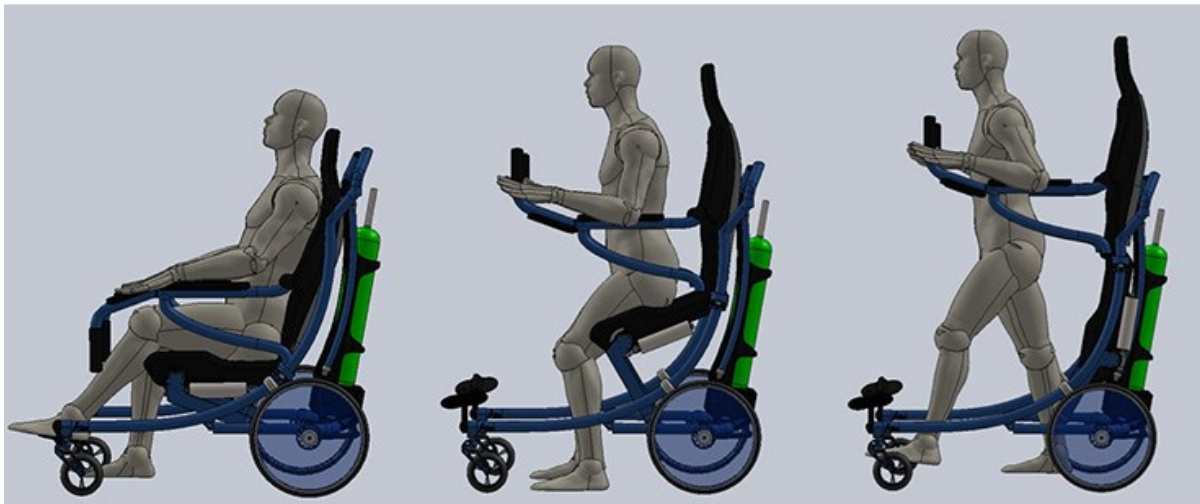

Flyht Aerospace Solutions may have developed a data streaming software, but researchers at MIT have developed a method of harnessing solar energy with higher efficiency and higher yields. The aerospace industry is advancing in multiple ways!

Seattle Events

Monthly Intellectual Property Office Hours (Seattle)

- Date/Time: First Tuesday of Every Month – 4:00 PM to 6:00 PM (PST)
- Location: Impact Hub Seattle – 220 Second Ave South Seattle, WA 98104 – [View Map](#)

Healthcare

Active Body Inc. was recently granted a patent by the USPTO for their new wheelchair concept. The wheelchair-rollator hybrid is modular. It allows for the user to use it as a standard wheelchair, but has an integrated robotic lift to bring the user up to a standing position. While in the rollator mode, the user is supported in walking. The concept is intended for persons that require a wheelchair, but encourages them to walk with the assistance.

Interested in 3D printing? Scientists have not only been able to successfully print ovaries in mice, but those mice were successfully able to reproduce! Read more about it on the Bold Blog!

Other Events

[Northend Bold Ideas Patents & Donuts \(Mountlake Terrace\)](#)

- Come enjoy a Q&A session where founding patent attorney, J.D. Houvener, will discuss Patent Law and other Intellectual Property subject matter! Donuts are included!
 - Date/Time: First Friday of Every Month – 9:00 AM to 10:00 AM (PST)
 - Location: Bold IP (Mountlake Terrace Office) – 6100 219th Street SW, Suite 480, Mountlake Terrace, WA 98043 – [View Map](#)

Tacoma Bold Ideas Patents & Donuts (Tacoma)

- J.D. will be hosting office hours at the Tacoma Bold Innovations site to anyone interested in talking about patents. Come with general questions regarding patents!
 - Date/Time: Fourth Friday of Every Month – 10:00 AM to 12:00 PM (PST)
 - Location: Bold Innovations, 1742 Pacific Ave. #406, Tacoma, WA - [View Map](#)
-

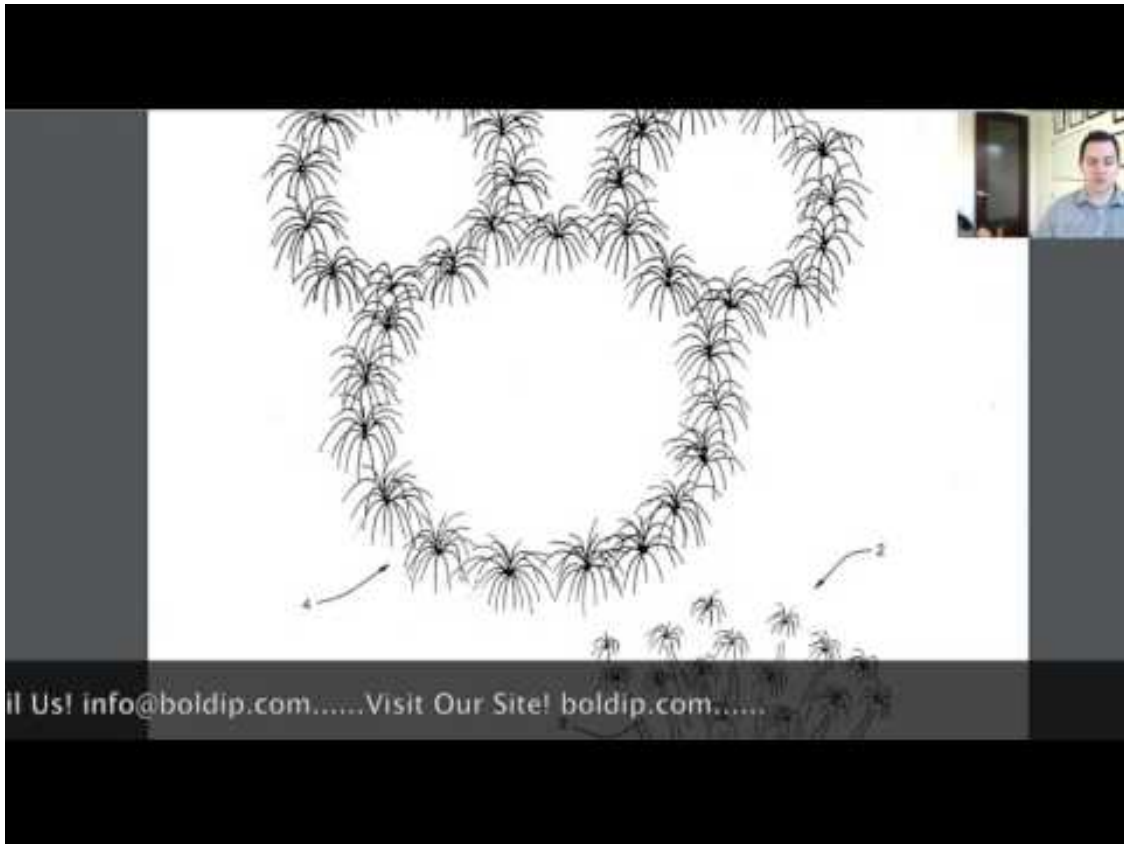

Software

[Google's Tensorflow, a machine-learning learning software, is becoming the industry's go-to tool for building artificial intelligence \(AI\) software. Are free software tools driving the cloud computing industry forward?](#)

[Software is taking a leap into biometrics. More and more software is now integrating biometric technology to improve software security. Mastercard is a company that is experimenting with fingerprint scanners on their debit cards. Read more on it here!](#)
