

What Every Investor Wants To Know About Your IP

According to the U.S. Department of Commerce, IP supports more than 45 million jobs in America and represents over **\$6 trillion** in GDP alone.

Intellectual property intensive industries create roughly **27.7%** of jobs in the U.S.

Each year, approximately **12,000** intellectual property cases are filed

Are you **PRIMED?**

P - Protected IP

You've protected the four major areas of IP:

- Patents
- Copyrights
- Trademarks
- Trade Secrets

R - Represented

An attorney was used to research and file your IP correctly instead of filing yourself or through a similar shortcut.

I - Invested in Limited Liabilities

The IP assets are being held in an LLC/ Corporation to protect it from liability.

M - Map for Growth

There is a strategy in place for investors to review patents and proposed patent concepts.

E - Established Contracts

Contracts are in place with third parties to assure ownership of ongoing development or improvements.

D - Distinct Ownership

You have ownership of the IP in its entirety.
